

MURALIDHAR KUKKALA

Dublin, Ireland (Stamp 1G) | +353 899 412 176 | muralidharkukkala997@gmail.com | linkedin.com/in/muralidhar-kukkala

PROFESSIONAL SUMMARY

Data Analyst with an MSc in Data Analytics and 3 years of enterprise experience delivering business intelligence solutions, ETL pipelines, and self-service dashboards. Proficient in SQL, Python (pandas, NumPy), Power BI, and DAX. Track record of transforming large-scale datasets into KPI-driven insights. Experienced in stakeholder management, data governance, GDPR compliance, and Agile delivery.

TECHNICAL SKILLS

Languages & Query	SQL (advanced), Python (pandas, NumPy, matplotlib), DAX, Power Query (M)
BI & Visualisation	Power BI, Power BI Dataflows, Tableau, Excel (advanced)
Data Engineering	ETL/ELT Pipelines, Data Modelling, Data Warehousing, API Integration
Databases	PostgreSQL, MySQL, MongoDB
Tools & Methods	Git, Jupyter, Salesforce CRM, Agile/Scrum, Statistical Analysis, Data Governance, GDPR

PROFESSIONAL EXPERIENCE

MSc Data Analytics – Full-Time Study Jan 2025 – Jan 2026
National College of Ireland, Dublin, Ireland

- Completed advanced modules in statistical analysis, machine learning, data visualisation, big data technologies, and data governance, applying Python and SQL across real-world Irish datasets.
- Designed and delivered two end-to-end analytics projects (ITC Hotels revenue optimisation; multi-source public health pipeline), producing dashboards and data models assessed at distinction level.
- Developed and presented data-driven insights to academic panels, strengthening stakeholder communication and data storytelling skills in an Irish professional context.

Data Analyst Aug 2021 – Apr 2023
Tech Mahindra, India

- Designed and optimised SQL queries and database transformations, improving reporting efficiency by 30% and reducing query run-time by 25%.
- Automated data extraction, validation, and reporting workflows using Python (pandas, NumPy), cutting manual effort by 30% and processing time from 4 hours to under 1 hour daily.
- Built and maintained ETL pipelines for large-scale operational datasets, ensuring data integrity across downstream business intelligence systems.
- Developed 10+ self-service Power BI dashboards with DAX and Power Query, enabling 15+ KPIs to be tracked independently by non-technical stakeholders and reducing ad-hoc requests by 40%.
- Translated requirements from 5+ cross-functional stakeholders into actionable KPI reports, improving decision-making turnaround by 35%.
- Conducted root cause analysis on pipeline failures, identifying 3 systemic issues that reduced reporting errors by 18% and improved SLA compliance.

KEY PROJECTS

Strategic Revenue & Customer Analytics – ITC Hotels *Power BI, Salesforce CRM, DAX*

- Built 5+ Power BI dashboards tracking revenue, occupancy, ADR, and customer segmentation KPIs to support data-driven pricing decisions.
- Integrated Salesforce CRM data to analyse customer lifetime value (CLV) and booking behaviour, identifying high-value segments for targeted campaigns.

Multi-Source Data Integration Pipeline – Legislative, Academic & Public Health *Python, SQL*

- Designed ETL pipelines integrating 3 heterogeneous data sources, processing 50,000+ records for unified cross-domain analytics.
- Performed data cleaning, schema alignment, and normalisation; delivered a structured data model reducing retrieval time by 40%.

EDUCATION

MSc Data Analytics – National College of Ireland, Dublin Graduated Jan 2026

- Key modules: Statistical Analysis, Machine Learning, Big Data Technologies, Data Visualisation, Research Methods, Data Governance & Ethics.
- Thesis: *Disease Symptom Profiling Using NLP and Knowledge Graphs* – applied natural language processing and graph-based data modelling to structure and analyse clinical symptom data, surfacing diagnostic patterns across large medical datasets [GitHubLink](#)

Bachelor of Technology – Electronics & Communication Engineering 2016 – 2020
Jawaharlal Nehru Technological University *India*

CERTIFICATIONS

Google Data Analytics Professional Certificate – Coursera Aug 2024
Microsoft certified Azure Fundamentals (AZ-900) – Microsoft April 2023
